

Procedures for getting Internet information on your IPAQ computer.

Sign-up for free Avantgo Channels on the Internet: (This is a method of getting Internet information onto your IPAQ computer each time you synchronize your handheld computer with your desktop computer.)

1. Use your desktop computer browser to register for an account on Avantgo. The web address is <http://avantgo.com/frontdoor/index.html>.

- a. Choose 
- b. Choose "Get an Account" in the upper right hand corner of the Avantgo

Account Sign In [Get an account](#)

Username:

Password:

- c. web page.
- d. There will be four pages with questions regarding your profile and interests.
- e. After establishing the account you will be asked what kind of device (handheld) computer you use. Choose

Pocket PC

- AvantGo version 3.3 build 1300
- Supported Devices: HP/Compaq iPAQ series, Dell Axim series, [more](#).

- e. You will need to download the Avantgo software to your desktop and load it on your desktop to continue. Choose

DOWNLOAD

What's this?
First, right click on the link at right and choose "Save Target As" to save the AvantGo installer in a place that you're sure to remember, like your desktop.

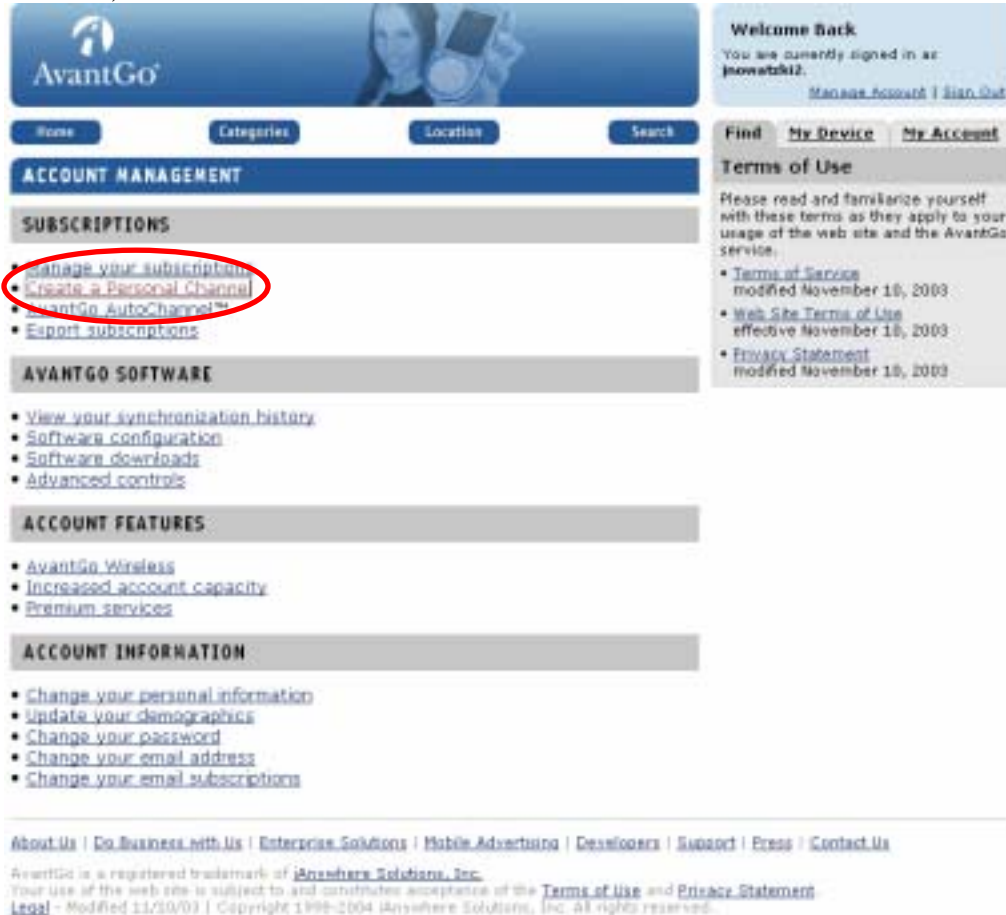

Second, locate and double-click the installer (shown in the illustration to the right). When the installer has completed, it will launch your browser back to AvantGo to complete the install process.

1. [Click Here to Download](#)
2. 

- f. After downloading the Avantgo software use Windows Explorer on your desktop computer to install the software. Find the executable file  AGCEClientSetup.exe on your computer and double-click it to begin the installation.
- g. Follow the installation wizard to install the software. Choose a typical installation and answer "Yes" to install a mobile link on your computer.
- h. You will need to have your handheld and desktop computers synchronized to complete the installation.

Example 1: Selecting ProCrop as a channel for your IPAQ:

2. Use a web browser on your desktop computer to go to the Avantgo website. You will need to use the username and password to access the Avantgo site. (The username and password were established when you registered for the Avantgo account.)

3. Click on “Create a Personal Channel” to begin the process of selecting ProCrop.
 - a. Choose a name for the channel such as “ProCrop”
 - b. Type in the following for the location:
<http://www.ag.ndsu.nodak.edu/aginfo/procrop/procrop.htm>
 - c. Set the channel size to 1800, and the link depth to 3.
 - d. Choose “No” to “include images” and “follow off-site links”.

- e. Select "Save Channel".
