

Farm Bill Calculator INPUT FORM
NDSU Extension Service

Name	
Farm No. (optional)	
County (optional)	
Effective Cropland*	

*Total cropland minus CRP and WRP acres

Enter your PFC (historic) Bases & Yields*

Crop	Units	Base	Yield
Wheat	bu		
Barley	bu		
Oats	bu		
Corn	bu		
Sorghum	bu		

*The base acres & payment yields used under the 1996 farm bill to determine Production Flexibility Contract (PFC), or AMTA, payments.

Enter Your Planted and Prevented Planted Acres, 1998-2001

Crop	1998		1999		2000		2001	
	Planted	Prev Plt	Planted	Prev Plt	Planted	Prev Plt	Planted	Prev Plt
Wheat								
Barley								
Oats								
Corn								
Sorghum								
Soybean								
Sunflower								
Canola								
Flax								
Safflower								
Mustard								
Rapeseed								

Enter Your Yields per Planted Acres (exclude prevented planted acres from calculation)*

Crop	Units	Actual Yields per Planted Acre				Minimum "Plug" Yields**
		1998	1999	2000	2001	
Wheat	bu					
Barley	bu					
Oats	bu					
Corn	bu					
Sorghum	bu					
Soybean	bu					
Sunflower	lb					
Canola	lb					
Flax	bu					
Safflower	lb					
Mustard	lb					
Rapeseed	lb					

* This is the total production for the year divided by **planted** acres.

**Enter "plug" yields for your county (75% of the 1998-2001 county weighted average yield per harvested acre.) The higher of the "plug" and your actual yield per planted acre will be used to calculate your 1998-2001 weighted average yield. Contact FSA for county plug yields.

Enter a FSA assigned yield if there is => no PFC base for the crop AND it was planted, or prevented planted, 1998-2001.

Most farms will not make an entry here.

Crop	Units	FSA yld
Wheat	bu	
Barley	bu
