

# Firewood

# ALERT

Help stop the  
spread of exotic pests

## DON'T BRING FIREWOOD INTO NORTH DAKOTA!

Exotic insects like Emerald Ash Borer are a major threat to North Dakota's trees. Such pests are easily spread to new areas when infested firewood is brought from other states.

If you or someone you know is planning a trip to North Dakota:

- Don't bring firewood from out-of-state
- Use North Dakota sources of firewood

Emerald ash borer is spread to new areas by infested firewood.

If you have  
already brought  
firewood into the state,  
do not leave it or take it  
with you – **BURN IT  
IMMEDIATELY!**
