

2008 Soybean Performance Trial

With increasing farmer interest in soybean production in the Western Dakota's, the NDSU Hettinger Research Extension Center has opened it's soybean performance trial to private companies. **There is no fee associated with this trial, however, there is a limit of 2 entries per company.**

Days to bloom, days to mature, plant height, lodging, test weight, protein content and oil content will be tabulated on all entries. Results will be sent to you as soon as possible after harvest and will be published in the Western Dakota Crops Day Book and other appropriate publications.

Please fill out the attached entry form and fax it back to me by April 25 and submit seed by April 25 to:

Eric Eriksmoen, Research Agronomist
NDSU Hettinger Research Extension Center
Highway 12 W., Box 1377
Hettinger, ND 58639

Telephone: 701-567-4323

Fax: 701-567-4327

e-mail: eric.eriksmoen@ndsu.edu

(See Entry Form Below)

**CROP CULTIVAR PERFORMANCE TESTING CONTRACT
NORTH DAKOTA STATE UNIVERSITY
AGRICULTURAL EXPERIMENT STATION**

CROP CULTIVAR PERFORMANCE TESTING CONTRACT between the NDSU Hettinger Research Extension Center at Box 1377, Hwy 12 W., Hettinger, ND 58639 and

_____ at _____
(Company name) (Address)

The seed supplier agrees to furnish **1 pound** of seed for each soybean line entered. The trial will be conducted at Hettinger, North Dakota (dryland). Variety names will appear in publications as listed below.

Type = Conv – conventional , RR – Roundup Ready etc. **Matur.** = maturity rating.

Brand/Company	Type	Matur.	Identification of variety
_____	_____	_____	_____
_____	_____	_____	_____

Seed shall be submitted on or before April 25 for testing during the 2008 growing season. There is no fee associated with this trial.

The Hettinger Research Extension Center will plant, maintain and harvest all plantings in a manner consistent with accepted practices. Observations to be made by the investigator will include planting and harvesting dates, yields, test weights, maturity, oil and protein content, and such other information that may be mutually agreed upon between investigator and supplier of seed. Data from these North Dakota State University Agricultural Experiment Station trials shall not be used in advertising to indicate North Dakota Agricultural Experiment Station recommendation of any specific cultivar. The investigator will destroy all left over and harvested seed at the conclusion of the trial.
