Jim Hennessy, Mountrail County Agent
Mike Rose, Ward County Agent

Trial Information:

The objectives of this trial were to evaluate seed treatments on winter wheat. ‘Jerry’ winter wheat was treated with various seed treatments. Treatments were arranged in a randomized complete block and replicated four times. Roseglen was no-till planted September 21, 2006 and Berthold was no-till planted September 26, 2006 into previous wheat residue. Plots were harvested July 21 at Roseglen and August 3 at Berthold.

2007 Winter Wheat Seed Treatment Trials Results, Roseglen, ND.

Treatment	Yield Bu/A	Test Weight Lb/bu
Untreated	54.2	57.8
Raxil MD	55.4	58.1
Raxil MD Extra	55.5	57.6
Raxil MD-W	60.0	58.0
Bayer EXP	59.9	58.1
Gaicho XT	55.0	57.5
LSD 5%	NS	NS
