## GIS Internship

**Western Range & Water, Inc.**, an environmental consulting and regulatory service provider, is looking to immediately fill paid **GIS Intern** positions in its Twin Valley, Minnesota office. This is an opportunity for fantastic real-life, hands-on GIS experience.

Duties will include:

- \* Constructing Storm Water Pollution Prevention Plan Maps for oil and gas industry
- \* Constructing field maps for oil and gas developments
- \* Maintaining reclamation tracking geodatabase for oil and gas fields
- \* Data formatting and entry
- \* Access database formatting, including tables, forms, and reports

Qualifications:

- \* Have taken and passed NDSU's Geosciences Department's *Introduction to GIS* class with Dr. Peter Oduor **OR**
- \* Have equivalent experience in ArcGIS (ArcView, ArcEditor, or ArcInfo)
- \* Experience in Access or other databases is helpful
- \* Natural resource- or GIS-related majors preferred

WRW intern positions have qualified for internship credits in the past, and we will work with applicants to meet internship requirements. Position is a paid internship. Scheduling can be arranged around your classes. Our office is located 45 minutes northeast of Fargo, so you must have reliable transportation.
